Education

Global Academy of Technology, Bengaluru
Bachelor of Engineering (Computer Science and Engineering)
Expected Graduation: 2028 CGPA: 8.07

Technical Skills

Languages: JavaScript (ES6+), Python, C, HTML5, CSS3
Frontend: React.js, Tailwind CSS, EJS
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Database: MongoDB, Mongoose
Tools: Git, GitHub, Postman, VS Code

Projects

Backend Focused Social Media Application

- Developed a full-stack social media application using React, Node.js, Express.js and MongoDB.
- Implemented secure JWT authentication, password encryption and protected routes.
- Designed RESTful APIs supporting CRUD operations for users, posts, likes and comments.
- Integrated Multer for image uploads and optimized MongoDB schema relationships.
- Structured backend using modular architecture with middleware, controllers and models.

File-Based Notes Management System

- Built a Notes Management application using Node.js, Express.js and EJS templates.
- Implemented Create, Read, Update and Delete (CRUD) operations using Node File System (fs).
- Designed modular routing architecture improving maintainability and scalability.
- Added user authentication and session management for secure note access.

Leadership & Activities

Membership Chair – ACM Student Chapter

- Coordinate membership drives and student engagement activities.
- Collaborate with faculty and industry partners for technical events and workshops.

Technical Team Member – IT Club

- Assisted in organizing technical events, coding activities and workshops.
- Supported event execution and technical coordination.

Achievements

- Built multiple backend-focused web applications using modern JavaScript technologies.
- Practicing Data Structures and Algorithms regularly.
- Learning System Design and scalable backend architecture.

Relevant Coursework

Data Structures and Algorithms
Database Management Systems
Operating Systems
Computer Networks
Object Oriented Programming
Software Engineering
